

# Deralam Laminates Limited

Capex investment has supported Deralam Laminates on the journey to net zero. The company invested in a biomass boiler and solar panels, enabling a more efficient and long-term low-cost carbon reducing solution.

## The Company

- ◆ Deralam Laminates is a manufacturer of laminate surfaces for the building trade offering a same day collection service of a range of designs and colours.
- ◆ The business operates out of Wigan, Greater Manchester as well as its manufacturing unit in Skelmersdale where it has a state-of-the-art production line.

## The Requirement

- ◆ Highly Intensive manufacturing energy user, looking for funding to acquire a biomass boiler and solar roof panels.
- ◆ Reduce on-going landfill waste currently through wood material wastage.

## HSBC UK Equipment Finance Solution

- ◆ Provided capex funding package, enabling the business to preserve cash whilst maintaining future income from sustainable capex investment.
- ◆ Able to generate own electricity whilst also replacing the need for fossil fuels.
