

MiVision Premium

Factsheet

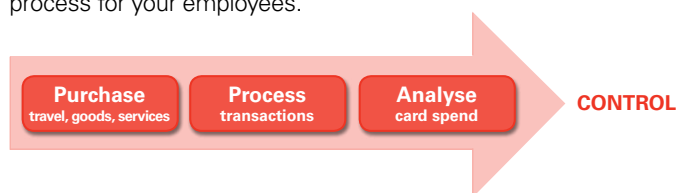

Manage business expenses simply and quickly with our full expense management solution.

This could be the right solution for you

- If you have complex, time consuming processes for managing business expenses.
- If you need to improve compliance with internal policies and procedures.
- If you need to reduce manual processing of expense claims.
- If you need visibility of every aspect of your businesses travel and entertainment expenses.

How it works

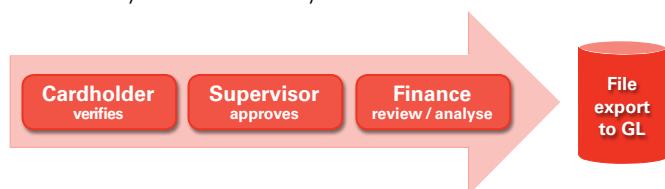

MiVision Premium seamlessly integrates with our suite of corporate card products. Simple to configure and easy to implement it helps you manage and control your company's business expense procedures and simplifies the expense claim process for your employees.

Our card statements are fully integrated within MiVision Premium so your cardholders can view statements online and process a claim from anywhere in the world.

Simple

- An end-to-end solution means just one contract for both your card programme and expense management software.
- Seamless integration into your businesses core business systems.
- The hosted solution reduces the complexities of managing the IT Infrastructure needed for in-house expense management.
- The built-in workflow enables quick and easy processing of card transactions including an automatic upload of export files into your back office system.

Intuitive

- A simple point and click user interface means MiVision Premium is user friendly and requires minimal training and support.

Versatile

- MiVision Premium can process transactions from a number of sources including: travel and entertainment, purchasing and fuel cards, or even mobile phones and cash claims.
- Configurable to support your existing policies and procedures.

Management Information

- Online management information reporting providing instant visibility of card spend including a number of standard reports and the ability to create your own reports.
- Transaction data can be consolidated to show real-time or historic data to assist with programme management and provide greater negotiating power with suppliers.

Efficient

- Reduce admin costs by eliminating manual processing of financial transactions.
- Pre-populated transactions enable staff to submit and approve claims quickly and easily.

Online Statements and Management Information

Our premium solution also incorporates our standard MiVision online statement tool to give you and your employees a fully integrated online solution.

For cardholders MiVision provides:

- Online statements with full VAT 'line item detail' transaction information for purchasing cards.
- Recent transactions that are updated daily and statements which are accessible for up to 3 years.
- The ability to update personal profile details.

For the business MiVision provides:

- The ability to update cardholder profiles, close accounts, set spend limits, view all cardholder accounts and set up company structure for security and reporting purposes.
- A consolidated view if you have other HSBC corporate payment card products.
- Online HMRC compliant VAT reports for purchasing card transactions.
